

ANNUAL HEARING SCREENINGS

Annual hearing screenings will soon be conducted on all Kindergarten, 1st and 9th grade students. Any student who is new to the school district will also be screened during this time. Our Audiologist will be asked to see students with known hearing losses, and those that fail the screening.

If this applies to your child and **if you wish to decline** the hearing screening for any reason, please notify your child's school office.

Hearing screenings may also be conducted for your child at any time upon request, regardless of age or grade. Please make requests known to the school office.

Thank you,
